Bonfire Night

Introduction

This creative sensory activity explores the sights and textures of Bonfire Night and makes Bonfire Night accessible and exciting for more people.

In this guide, you'll find out how to make a tactile bonfire, explore different ways of using paint to make explosive fireworks and how to make your very own rocket. Make sure to have a wipeable cover over your table, an apron and lots of warm soapy water on hand to clean up the mess!

On the next page you'll find an accessible guide to the resources that you'll need for the activity.

You can watch a video of one of our leaders showing you how you can use this creative activity [here](#).

Things you'll need for this activity

	Paint brushes
	Cardboard tubes
	Black paper or card
	Shiny, colourful paper
	Colourful tissue paper
	Plain paper

Paints

Something to stick with, such as glue or sellotape.
